

KitchenAid®

STAND MIXER OPTIONAL ATTACHMENT** SHAVE ICE ATTACHMENT 5KSMSIA***

Shave ice is no ordinary frozen treat. Traditionally made by shaving large blocks of ice, its texture is light & fluffy - unlike the hard and crunchy snow cone. The KitchenAid Shave Ice Attachment** lets you easily create over over 500mL of fine shave ice in 60 seconds.* From there, you can customise your ice creation with exciting flavours, ingredients, and topping combinations. Building your own shave ice creation is as simple as 3 easy steps: Freeze, Shave, Create.

* Excludes prep time, based on plain ice using fine blade.

** Stand Mixer shown sold separately.

*** Fits all KitchenAid stand mixers.

STAND MIXER OPTIONAL ATTACHMENT SHAVE ICE ATTACHMENT 5KSMSIA

SHAVE ICE ATTACHMENT POWERED BY THE KITCHENAID STAND MIXER

- Easy to set up, to use and to clean.
- To consistently make textured shave ice in under a minute for toppings, flavours, and sauces.
- Effortlessly shave an ice base that is fluffy and light.

INCLUDED ICE MOLDS

- To easily freeze plain or flavoured water, fresh juice, coffee, and cream to experiment and create unique combinations whenever creativity strikes.

2 BLADES: FROM FINE AS SNOW TO COARSE AS HAND-SHAVED

- To customize the ice structure.
- To have a consistent ice base as the ice mold design maximizes blade contact for an even end product.

STAND MIXER OPTIONAL ATTACHMENT SHAVE ICE ATTACHMENT 5KSMSIA

Standard Accessories

4 ICE MOLDS WITH LID

- To explore endless ice flavours.
- 1) Freeze: Fill any of the 4 ice molds with a base of choice such as water. Freeze for 12-24 hours.
- Position a pre-frozen block of plain ice or flavoured liquid inside the attachment.
- Dishwasher-safe.

2 BLADES: FINE (SNOW) AND COARSE (HAND-SHAVED)

- 2) Shave: Remove ice from mold and allow to 'temper*'.
 - Choose a blade, select the coarseness, and load the ice 'puck' (should be ready to use in 10 minutes or less) into the ice cup of the shave ice attachment.
 - Dishwasher-safe.

SHAVE ICE ATTACHMENT

- 3) Release top lever and shave/create.
- To customize any creation with an array of flavourful syrups, fruits and other tasty toppings.

STORAGE BOX

- To easily store and keep clean all accessories in one and the same box.

* Tempering: means allowing the ice to adjust at room temperature until it develops a glossy, wet look and is clear from all sides. Tempering is an important step for producing the lightest and fluffiest shave ice.
